WHAT A SKETCHBOOK IS FOR

A sketchbook is not a book of finished pictures. It is where the thinking happens, and most of what is in it will not be good.

It holds four things: drawings from observation, notes about what you noticed, experiments with a material, and ideas you have not used yet.

Nothing in it is rubbed out and nothing is torn out. A page that went wrong is the most useful page in the book when you come back in six months and want to know why.

Testing a material before you need it

TESTING A MATERIAL BEFORE YOU NEED IT

Keep a page for each material: what it does wet, what it does dry, what happens when it goes over something else.

Paint a strip of watercolour from strong to almost nothing, and keep it. Shade a strip of pencil from black to white. Write the pencil grade beside it.

When you need a particular grey in six months, you will have a page that tells you how to mix it instead of guessing again.

Find a sketchbook page online or in a book

Go and look at a real thing. This is the lesson, not the warm up.

FIND A SKETCHBOOK PAGE ONLINE OR IN A BOOK

Find a working sketchbook page by any artist, in a library book or online. Not a finished picture: a working page.

Write down three things on it that are not finished work: notes, measurements, crossings out, the same thing drawn twice. That is what a sketchbook actually looks like.

SAMPLE PAGES

You have read a few pages. The pack is longer.

What you are holding is a short sample, taken from different parts of the pack so that you can see how a week is planned and what a child is actually asked to do, before you decide.

The complete pack, and the rest of the academic materials, are on our website: schemes of work for a parent teaching at home, and practice packs for the skills children get stuck on.
