   40 and 60 together, then take that from 180°.

2. **A triangle has angles 55° and 65°. Find the third.**
   55 and 65 together, then take that from 180°.

3. **A triangle has angles 30° and 90°. Find the third.**
   30 and 90 together, then take that from 180°.

SAMPLE PAGES

You have read a few pages. The pack is longer.

What you are holding is a short sample, taken from different parts of the pack so that you can see how a week is planned and what a child is actually asked to do, before you decide.

The complete pack, and the rest of the academic materials, are on our website: schemes of work for a parent teaching at home, and practice packs for the skills children get stuck on.
